# eBridge Connections Offers Universal Integration Platform Hosted on Microsoft Azure to Connect Your ERP, EDI, CRM, and E-Commerce Applications
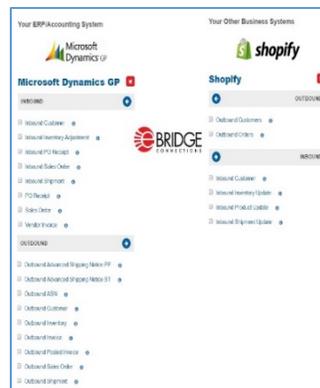

MICROSOFT AZURE SOLUTION BUILDER PROFILE: eBridge Connections

eBridge Connections delivers cloud-based ERP integration solutions that automate business processes while eliminating the need for manual data entry. With a universal platform that supports over 30 ERP systems with connectors for the leading e-commerce and CRM applications, and EDI trading partners, eBridge has become the vendor of choice for sellers worldwide.

WHAT WE OFFER

Reliable platform
- eBridge Connections can support your growing order volume
- Peak retail days are a breeze
- Record growth year over year in number of documents transferred for our clients

Clean, easy-to-use tool
- View your latest transactions
- Easily organize your mailbox
- Dive into details when you need to
- Check status of orders, invoices, shipment updates, and more

Speedy transfers
- Fast orders, document exchange between your systems
- Configure the connections you need to transfer your documents quickly and efficiently between systems

Sell in more places
- Add connectors or upgrade anytime
- A universal integration platform with over 5,000 live touchpoints and hundreds of pre-built connectors that can be added or removed as required

WHAT OUR CUSTOMERS ARE SAYING

"The biggest plus of the eBridge Connections platform is the ability to process orders quickly. The process is immediate."
– Sam Accad, IT Director, Diebold

Microsoft | Go-To-Market Services

Microsoft Azure

Microsoft Azure is an open and flexible cloud platform that enables you to quickly build, deploy, scale, and manage applications across a global network of Microsoft data centers. You can build applications using multiple languages, tools, and frameworks.

KEY USE CASES

WEB APPLICATIONS
Build anything from lightweight websites to multi-tier cloud services that scale up as your traffic grows.

CLOUD STORAGE
Rely on geo-redundant cloud storage for backup, archiving, and disaster recovery.

BIG DATA & HPC
Get actionable insights from your data by taking advantage of a fully compatible enterprise-ready Hadoop service.

MOBILE
Accelerate your mobile app development by using a backend hosted on Microsoft Azure. Scale instantly as your install base grows.

MEDIA
Create, manage, and distribute media in the cloud – everything from encoding to content protection to streaming and analytics support.

FLEXIBLE APPLICATION MODEL
Microsoft Azure provides a rich set of application services, including SDKs, caching, messaging, and identity. You can write applications in .NET, PHP, Java, node.js, Python, Ruby, or using open REST protocols. This is all part of Microsoft's promise to let you build using any language, tool, or framework.

ALWAYS ON, ALWAYS HERE
Build resilient applications with automatic operating system and service updating, built-in network load balancing, and geo-redundant storage. Microsoft Azure also proudly delivers a 99.95% monthly SLA. You can rely on decades of experience in data center operations and trust that everything Microsoft Azure offers is backed by industry certifications for security and compliance.

DATA CENTER WITHOUT BOUNDARIES
Microsoft Azure makes it easy for you to integrate your on-premises IT environment with the public cloud. Migrate your virtual machines to Microsoft Azure without the need to convert them to a different format. Use the robust messaging and networking capabilities in Microsoft Azure to deliver hybrid solutions, and then manage your hybrid applications from a single console with Microsoft System Center.

GLOBAL REACH
With data centers around the globe, a massive investment in data center innovation, and a worldwide Content Delivery Network, you can build applications that provide the best experience for users, wherever they are.
